

3.00 - Data exports

16 December 2021

- Release of the data export feature, accessible from article datatables:

The screenshot displays a web interface titled "LIST OF ARTICLES: REGISTRATION". At the top left, there is a "Show 25 entries" dropdown menu. Below this is a table with columns: Reference, Article Type, Author, Country, Status, and a date column. The table contains six rows of data. On the right side of the table, there is a yellow highlight over a download icon (a blue square with a white download symbol). A dropdown menu is open from this icon, showing two sections: "Export current columns" and "Export all columns". Each section has three options: "Excel", "CSV", and "PDF". The "PDF" option includes an information icon (a lowercase 'i' in a circle). At the bottom right of the table, there is a date "23/01/2023" and a small blue circular icon with a white downward arrow.

| Reference | Article Type | Author | Country | Status | |
|---|------------------|--------------------------|---------|--------------|--|
| JEOS-RP20220049 | Research article | I. Georgantoteste ecrase | Bahrain | Registration | |
| JEOS-RP20220051 | Research article | Heike Müller | Germany | Registration | |
| JEOS-RP20220052  | Research article | Fernanda Madureira | France | Registration | |
| JEOS-RP20220053  | Research article | Fernanda Madureira | France | Registration | |
| JEOS-RP20220055  | Research article | Jean Maison | Bahamas | Registration | |
| JEOS-RP20230002 | Research article | Nicolas Boestest2 | Bahamas | Registration | 23/01/2023  |
