

# 6.20 - Improved files management, linking existing accounts

30 January 2025

---

## File transfers

The way we handle file transfers and storage has received a much awaited update! If you identify any hiccup when downloading/uploading a file from Nestor, please let us know at [support@nestor-edp.org](mailto:support@nestor-edp.org)

---

## Improvement of the file module

The file module has received the following updates:

- Files are now ordered
  - first by filetype order
  - then alphabetically
- No more confirmation popup when changing a file type
- Multi-select for easy deletes and downloads!
- The module display is now much clearer on small screens

## Version files

PDF manuscript	...4864864563_manuscript	172 b	<input type="checkbox"/>
Cover Letter	cover.txt	58 b	<input checked="" type="checkbox"/>
Source files	sources.zip	135 b	<input type="checkbox"/>

Upload new files

Download all

## Co-author validation: linking an existing account

The corresponding author sometimes uses an alternate address (for example a gmail) to register a co-author. If the co-author is already registered in Nestor with another address, this will result in a duplicate account.

This update addresses the issue by proposing the coauthor to discard the alternate address and link his/her historic account:

[LOGIN](#) [REGISTER](#)

Thanks for confirming your collaboration, please take a few seconds to finalize your account! Once finished, you will have access to the article history.

If you already have a Nestor account, [click here](#).

Otherwise, please take a few seconds to complete the information below.

### SECURITY

PASSWORD (at least 6 characters containing a capital letter and one number)

Password confirmation
