6.30 - Automatic renaming and stand as

17 March 2025

File types: automatic renaming

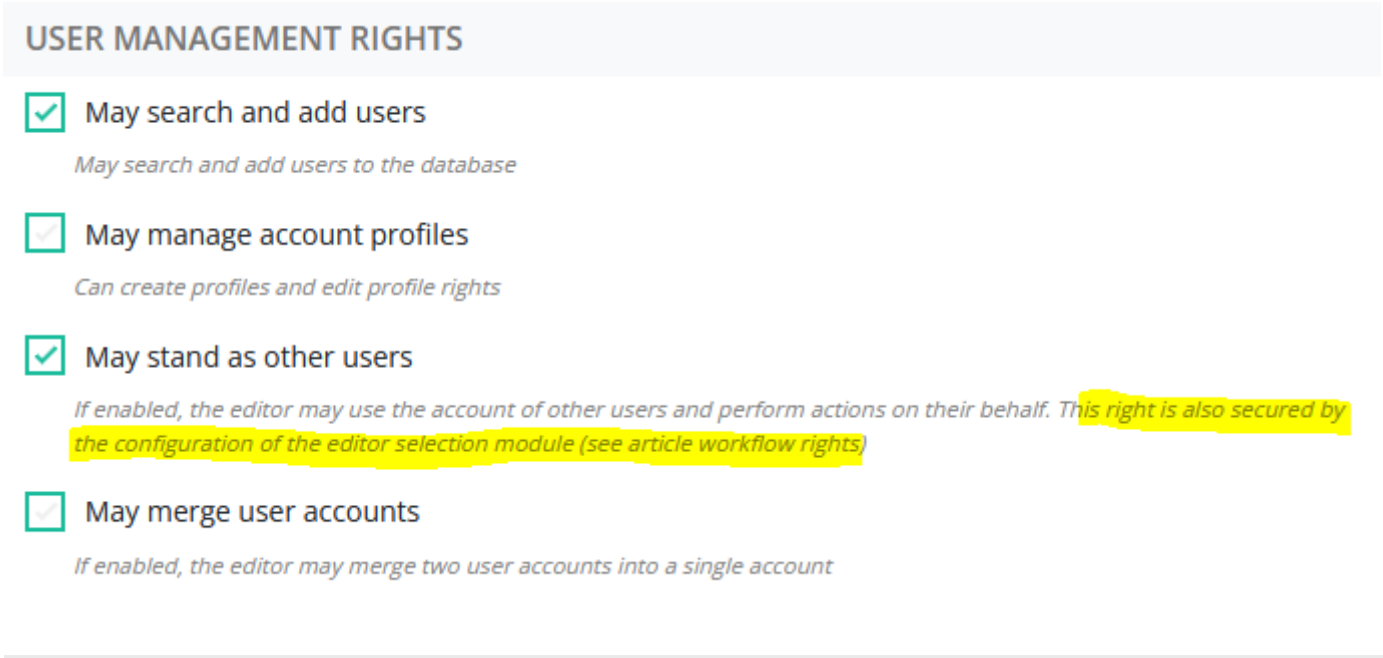

This feature used to apply only during the author's submission.
Automatic renamings will now be also applied in the back office, when an editor uploads a file via the file module, thus saving a few clicks to Editorial Offices.

Locking of the stand as feature

The feature is now locked by a new condition. All locks are defined in the editor's profile:

- First, you must have the right to stand as someone else's profile,
- Second (new), you must have the right to assign the editor you want to stand as
