

7.50 - Orcid peer review activity and more

16/06/2026

Orcid peer review activity

Nestor is now able to update the [peer review activity in ORCID](#). For this to work, the referee must link his ORCID when uploading the report:

REFEREE INVITATION ON ARTICLE JEOS20250035

Thank you for submitting the report :)

 [Update your peer review activity in ORCID](#) 

 [Contact the editor](#)

The feature is available only for future reports, and must be performed immediately by the referee after uploading the report. No action is needed on your side.

Abandoned submissions

An incomplete submission untouched by the author for more than a year is now cleaned automatically. The process is automated and executed daily. No action is needed on your side.

Author and referee dashboard

With features piling up, the dashboards were crowded with counters, bright colors and varying fonts. We streamlined the design to put the focus back on important information and critical actions.
